To whom it concerns,

I, Andrew Ernst, Trustee of the United Methodist Church of Hygiene, write this letter to give our appreciation of the work of replacing the wind damaged to our historical red brick church. The firm of A&H Roofing came to our aid in repairing the wind-damaged portion of the church roof. Tom and his company went above and beyond to facilitate the repair. They were professional at every turn of the project. They worked with Boulder County to obtain the building permit and to get the correct type of shingles to meet current building code,

The roofing crew was of the highest professional in all their job of doing a very satisfactory and complete work. They were courteous and professional in accomplish the work in a timely manner. Cleanup of the job sight was immaculate and complete with not any roofing nails to be found anywhere.

The costs associated were very acceptable. Crystal was always working to make the process better at every turn. Using A&H roofing for their roofing needs will not disappoint anyone needing roofing services.

Thank you for doing such a great job, Andrew Ernst, Trustee of The United Methodist Church of Hygiene

Andrew W. Ernst
